Chart 1 Trends in tourist turnover at Jadran d.d. between January and March 2012-2019.

Between January and March 2012-2019, total revenue decreased by 20% and total expenses increased by 10% compared to the same period in 2018. The decrease in revenue in Q1 is a result of a launched investment cycle which in turn resulted in delayed opening of hotels. It may be said that the hotels did not operate in Q1 and a similar situation may be expected in the next quarter. The renovated properties are scheduled to open in early (Katarina) and mid (Omorika) April, whereas the Ad Turres properties will be successively opened until the end of April.

In 2019, operating revenue (revenue from accommodation and hospitality services) was 21% less compared to the same period in 2018.

5. COMPANY AND GROUP RISK EXPOSURE

Primary risks in the business of Jadran d.d. are as follows:

Competition risk

Competition risk in the tourism market is very high because other similar tourism destinations have invested substantial funds in the growth and development of their capacities, as well as in other marketing activities focused on tourist arrivals. Among other things, competition is based on the prices, quality and substance of tourism offerings in Crikvenica Riviera and other domestic and foreign tourism destinations. To increase its market competitiveness, the Company launched a new investment cycle which includes not only investments in accommodations to increase the number of units and improve accommodation quality, but also investments in the destination through active involvement in all events and designing new attractions in Crikvenica Riviera.

Currency risk

Currency risk is very much present in the Company's business considering the large share of foreign business and negotiation of prices in a foreign currency. The Company also incurs costs based on a currency clause (loan obligations).

Interest rate risk

The Company is exposed to interest rate risk because it enters into loan agreements with variable interest rates.

Settlement risk

Settlement risk is present in all bilateral transactions. Considering that the performance of monetary obligations to the Issuer is one of the key elements necessary for uninterrupted business, the Company gives high importance to this risk. The Company has established stringent procedures to minimize collection risks.

Inflation risk

Inflation risk is present in contractual relationships where the price of a service or product is indexed and tied to Croatian National Bank's strong HRK policy. As this is an external risk, the ability to eliminate it is minimal. For the purpose of minimizing inflation risk, the Company insists on negotiating fixed terms of supply with all suppliers where possible. Suppliers of energy are an exception – their prices are subject to stock exchange variations.

Liquidity risk

The Company manages this risk by maintaining adequate reserves and by obtaining loans from banks and using other sources of funding, by constantly monitoring planned and actual cash flows, and by

comparing maturity profiles of financial assets and liabilities. In the next period, the Company will not be exposed to such risk.

Risk of tax and concession legislation developments

The risk of tax and concession legislation developments is the likelihood that legislative authorities will amend tax legislation in a way that they adversely impact the Company's profitability. This risk is reflected in potential changes in tax rates and taxable assets, as well as in changes in regulations concerning concessions and concessional authorizations. The right to use a maritime domain is one of the significant conditions precedent to further operation of the Company and the Company has actively endeavored to establish new bases for cooperation with the local community in this segment.

Tourism industry risk

Tourism trends are largely affected by the broader political situation and growth of terrorism. As an industry, tourism is highly sensitive to the state of security at the destination and its surroundings. After the risk in some rival destinations was reduced (e.g. Turkey, Greece), the competitive position of both Croatian tourism and the Company has become additionally weakened. By launching the aforementioned investment cycle, the Company will endeavor to minimize the impact of adverse market trends and the resulting risks.

Environmental risk

Environmental risk may significantly affect the Company's performance, notably through the quality of the sea and coast where guests stay. Climate change may directly affect the length of stay in Company's accommodation facilities. This risk also includes other natural disasters.

Litigation risk

The Company is involved a number of disputes for the award of title, civil and enforcement proceedings and proceedings for the restitution of property. The Company is no longer involved in any high-risk disputes. In 2018, the Company entered into settlement agreements with all its secured creditors (employees and Croatia osiguranje) and arranged for the debt to be paid to them in installments. As the last installments become due and payable in August and September of 2019, the Company expects to have the relevant mortgages and enforcement annotations over properties released by the end of 2019.

Primary risks in the business of Club Adriatic d.o.o. are as follows:

Competition risk

Due to being involved in a pre-bankruptcy settlement proceeding, Club Adriatic d.o.o. has not been (for the time being) able to invest in improving the quality of its accommodations and the 2* and 3*

classification for the hotel and the camp, respectively, prevented the Company from competing with its most direct rivals in terms of prices and service quality.

Currency risk

The official currency of Club Adriatic d.o.o. is HRK however certain transactions in foreign currencies are translated to HRK according to the exchange rate applicable on the balance sheet date. The resulting foreign exchange differences are recorded as expenses or through profit and loss, but do not affect cash flow.

Liquidity risk

The management of liquidity risk includes maintaining sufficient amounts of cash and working capital. As Club Adriatic d.o.o. is involved in a pre-bankruptcy settlement proceeding, it is required to perform its obligations to its creditors and employees according to the agreed due dates. Most suppliers to whom Club Adriatic d.o.o. owes a debt under the pre-bankruptcy settlement demand payment based on a pre-invoice or within 8 days, so the Company needs to maintain sufficient funds to meet its regular obligations. What poses a risk to its business is the delay of the pre-bankruptcy settlement proceeding where there is risk that the Company will not be able to perform its obligation as they fall due during the winter period.
